

Emodnet Chemistry Coordination group video conference 5th of July 2011

The Coordination group video conference draft agenda includes:

-discuss and describe the status of the 5 WP:

-
- WP1:
 - need of lessons learned collection with inputs from the WP and Regional leaders;
 - reporting of MODEG comments and suggestions from the last progress meeting;
 - INSPIRE testing...SDN as interest group, what about INSPIRE compliance!?;
 - WISE marine meeting CPH with EEA, about Emodnet Chemistry follow-up;
-
- WP2: data collection and metadata compilation status, updates, gaps;
 - GNS
 - BS
 - MED
 - Adriatic spot: data from Arpa FVG work to do...
-
- WP3: QC/QA.
 - products validation and exotic parameters validation;
 - feedback about the draft for exotic parameters QC from UBSS experts;
 - next QC experts meeting ICES? ;
 -
-
- WP4:
 - DIVA Maps generation in the Black Sea (→ HCMR support?)
 - extension of the time series production to the other partners: tools discussion (ODV, other tools already used...), definition of a common standard for product format (layout, file format [odv output *GIF, PNG, JPG or Encapsulated PostScript*]....),
 - agreement on the work flow;
 - from last MODEG assessment and suggestions:
 - for this phase
 - improve access to TS plots → same level of DIVA maps on Gher OB;
 - metadata of products → CAMIOON!?;
 - improve identification and products search → CAMIOON metadata!?
 -
 - for the follow-up:

- more params: eg silicates, stable isotopes...
- multivariate analysis as next DIVA development... Gher;
- validation of products;
- more coverage

○

-
- WP5:
 - on line questionnaire → push potential users to fulfill them;
 - Emodnet WIKI available on extranet ... → IFERMER CAS/to manage users roles?;
 - MRAG assessment comments;
